Brand Workspace + Group Collection + Company Store

STAGE 3.1F — FROZEN • NO GENUINE STRUCTURAL BLOCKERS REMAIN • READY FOR CROSS-FLOW INTEGRATION AUDIT • LOW-FIDELITY

01 Research implementation notes

Source hierarchy: Stage 1.2/1.3/1.4, Stage 2/3, frozen 3.1C–E, Stage 3.1F research and state matrix. Preserve approved type, spacing, access and transaction patterns.

Scope and boundary

Organization operating environment after first order

Approved assets + reusable product templates + scoped locations

Group Collection gathers data; review creates Order Draft

Customer internal approval precedes HolyPearls Quote Acceptance

Private workspace, store and participant routes: NOINDEX; server authorization

No ERP, HR, payroll, warehouse, generic DAM or staff admin dashboard

02 Entity / model map

Keep each object distinct and show its relationship to existing Stage 3.1D/E records.

Canonical entities

ORGANIZATION → LOCATION(s) → MEMBER(s) with scoped access

ORGANIZATION → BRAND ASSET versions → PRODUCT TEMPLATE references

PRODUCT TEMPLATE or PROJECT CONFIGURATION → GROUP COLLECTION → PARTICIPANT submissions

GROUP COLLECTION review → ORDER REQUEST / ORDER DRAFT → PROJECT / ORDER

COMPANY STORE → approved template/product; request follows policy

Boundary rules

Asset version change never mutates historical order

Participant is a secure-link actor, not a workspace member

Group Collection is temporary collection, not production order

Order Request is customer-side approval, not Quote Acceptance

03 Workspace navigation / role visibility

Navigation reflects task and permission. Participant has a separate secure-link experience.

Owner / Admin

Overview · Assets · Templates · Projects · Orders · Groups · Store

Team · Locations · Billing / Settings where permitted

Organization switcher in desktop chrome; compact location context

OWNER: full permitted workspace, billing and explicit ownership transfer; final owner protected.

ADMIN: operational management; ownership transfer is not assumed, billing is permission-controlled.

CAN APPROVE ORGANIZATION REQUEST and CAN ACCEPT HOLYPEARLS QUOTE may both be granted to Owner.

Buyer / Approver / Viewer

BUYER: Overview · Templates · Orders · Groups · Store

APPROVER: Overview · Approvals · Orders

VIEWER: read-only permitted Orders · Projects · Templates · Assets

Hide routes without permission; enforce location scope server-side

LOCATION MANAGER: assigned-location orders, delivery details and history; no default team or organization billing access.

APPROVER reviews other requesters under policy; no automatic Buyer privileges or self-approval.

VIEWER: read-only access to assigned orders, projects, templates and assets.

BUYER may accept HolyPearls Quote after internal approval only when granted CAN ACCEPT HOLYPEARLS QUOTE.

APPROVER may hold CAN APPROVE ORGANIZATION REQUEST without quote acceptance or checkout responsibility.

04 Workspace Overview — Desktop

10 Asset Detail

Asset has a current approved version, linked resources and controlled download.

ACME PRIMARY LOGO · Detail

ACME PRIMARY LOGO / V4 CURRENT

PREVIEW PLACEHOLDER — approved production artwork

PRODUCTION READY · approved uses: PRINT / EMBROIDERY

Linked templates: Staff Polo, Business Card

Linked projects/orders: Conference 2026, historical orders read-only

[UPLOAD NEW VERSION] [VIEW VERSION HISTORY]

Download only for permitted roles; machine formats not primary customer labels

11 Asset Version History

Versions stay immutable; current use and historical links are explicit.

Logo version history

V3 · SUPERSEDED · historical, linked orders preserved

V4 · PRODUCTION READY · CURRENT · approved for Print / Embroidery

Version, decision, reviewer, timestamp and affected usage are visible

V5, if uploaded, is a new record; never overwrite V4

12 Replace Asset / template-impact state

Replacement is reviewed before affected templates switch. Historical orders stay on their approved versions.

Upload V5 · impact review

UPLOAD NEW VERSION: ACME PRIMARY LOGO V5

USED BY: Staff Polo Template · Business Card Template · Conference 2026

V5 PROCESSING / NEEDS REVIEW — not yet production ready

V4 remains active for approved usage where policy allows

Affected templates: AVAILABLE USING LOGO V4 while V4 is permitted; BLOCKED — ASSET REVIEW REQUIRED if ACME retires V4.

[REQUEST PRODUCTION REVIEW] [KEEP V4 ACTIVE]

Never silently mutate approved template or historical order

A · V4 STILL ALLOWED

NEW VERSION UNDER REVIEW · Logo V5 NEEDS REVIEW

Logo V4 remains PRODUCTION READY for Print / Embroidery.

Staff Polo Template: AVAILABLE USING LOGO V4.

This template continues using V4 until V5 approval. [ORDER USING V4] [VIEW V5 REVIEW STATUS]

After V5 approval, require template review for production-sensitive migration by default.

B · V4 RETIRED FOR NEW USE

ACME instruction: Do not use Logo V4 anymore.

Logo V4: RETIRED FOR NEW USE; historical orders still linked.

Staff Polo Template: BLOCKED — ASSET REVIEW REQUIRED.

Logo V5 must be approved before ordering again.

[REVIEW NEW LOGO] [USE ANOTHER APPROVED ASSET] if available.

SUPERSEDED = historical version replaced by a newer approved version. RETIRED FOR NEW USE = organization forbids new use. PRODUCTION READY = approved for the relevant use. NEEDS REVIEW = version not yet ready.

13 Templates Index — Desktop / Mobile

An approved template is a reusable production specification; order quantity and destination are new each time.

14 Template Detail

Company-controlled production decisions are visible next to the fields a buyer may change.

ACME STAFF POLO · Template detail

APPROVED PRODUCT: Staff Polo · supply model: HolyPearls sourcing

Garment: approved polo base · Navy

Decoration: left-chest embroidery · Primary Logo V4

Placement: approved · Sizes: XS–XXL

Personalization: employee name allowed, max characters per policy

Scope: Lekki / Victoria Island / Ikeja

[ORDER FROM TEMPLATE] [CREATE GROUP COLLECTION]

ACME STAFF POLO **APPROVED · All ACME locations**

STAFF POLO · NAVY

Approved production template preview

HolyPearls-sourced polo · left-chest embroidery

ACME Hospitality Group · Lekki / VI / Ikeja

Use this approved template

LOCKED BY ACME BRAND TEMPLATE

Product · Navy color · Primary Logo V4 · left-chest embroidery · placement

ACME approved these production choices. Ask an Owner/Admin to change them.

YOU CAN SET FOR THIS ORDER

Quantity [40]

Size breakdown [XS / S / M / L / XL / XXL]

Employee names [allowed by policy]

Needed-by date [select]

Delivery location [Lekki]

ORDER TEMPLATE **CREATE GROUP**

[VIEW RELATED HISTORICAL ORDERS] keeps the approved template linked to its prior orders without treating a Template Order as an Exact Reorder.

15 Locked vs Editable fields

Explain each lock in words; do not imply disabled fields are broken.

Company-controlled

LOCKED BY ACME BRAND TEMPLATE

Product: Staff Polo

Color: Navy

Artwork: Primary Logo V4

Decoration / placement: left-chest embroidery

Why: ACME approved these production choices; contact Owner/Admin for a change

Buyer-editable

Quantity

Size breakdown

Employee names, if allowed

Needed-by date

Delivery location from assigned locations

[CONTINUE TO REVIEW]

16 Template Needs Review

A changed dependency blocks unsafe ordering with a reason and recovery.

Needs Review · Staff Polo

NEEDS REVIEW

Logo V4 was retired for new use; Logo V5 has not yet been approved for embroidery.

Historical orders retain Logo V4. New Staff Polo orders wait for approved Logo V5 or another approved asset.

Alternative reason: previously approved polo base is unavailable.

[REQUEST TEMPLATE REVIEW] [USE APPROVED ALTERNATIVE]

Historical orders and their approved specifications stay intact

17 Quick Reorder vs Template Order

Exact reorder and template order have different source records and proof rules.

EXACT REORDER

Repeats a historical order: same product, artwork, placement, specification, production method

May update quantity, needed-by or destination when allowed

Proof can be skipped only under Stage 3.1E strict unchanged-spec rule

[EXACT REORDER]

TEMPLATE ORDER

Starts from approved ACME production template

New quantity, size breakdown, participants, location or allowed names

Changes to controlled design require review and normal proof path

[ORDER FROM TEMPLATE]

18 Team Members — Desktop / Mobile

Owner/Admin manage members; a scoped member never gains organization access through a location label alone.

Team · Desktop 1440

[EDIT DELIVERY DETAILS] [MANAGE MEMBERS] if permitted

Organization-wide Logo V4 is referenced, not copied

23 Internal Approval primitives

PRIMARY END-TO-END FIXTURE · 60 PEOPLE · 45 LINK + 15 CSV · 2 LOCATIONS · 2 CSV ISSUES · Customer-side order approval is distinct from HolyPearls Quote Acceptance.

Policy and request states

TEST POLICY: ACME requires organization approval above ₦250,000

Buyer request → AWAITING ORGANIZATION APPROVAL

APPROVER may APPROVE / REQUEST CHANGES / DECLINE

Requester cannot self-approve when separation is required

Approved request → normal HolyPearls quote/order workflow

Approval history: decision, reason, actor, timestamp

A · WITHIN AUTHORITY

PRIMARY 60-PERSON JOURNEY · TEST DATA

Buyer request ₦450,000 → organization approved up to ₦450,000

HolyPearls Quote ₦440,000 → ORGANIZATION APPROVAL VALID

Authorized quote acceptor reviews and accepts; no redundant reapproval.

B · ABOVE AUTHORITY

Previously approved ₦450,000 · Current quote ₦485,000 · Difference ₦35,000

ORGANIZATION REAPPROVAL REQUIRED · final quote exceeds approved amount

[SEND FOR REAPPROVAL] [REQUEST HOLYPEARLS CHANGES] [EDIT PROJECT / ORDER]

Quote stays visible; acceptance blocked until authority covers new amount.

C · MATERIAL SCOPE CHANGE

New product category, installation, major quantity, location or customization may trigger review.

REAPPROVAL REQUIRED when ACME policy treats changed scope as material.

Policy model can later support exact amount, ceiling, tolerance % and material-scope rules.

No complex policy editor in this wireframe.

24 Approval Review

PRIMARY END-TO-END FIXTURE · 60 PEOPLE · 45 LINK + 15 CSV · 2 LOCATIONS · 2 CSV ISSUES · A dedicated page gives approver full context and a deliberate decision.

2027 Staff Uniform Reorder · Approval review

Requester: Tomi Adebayo · Buyer

Locations: Lekki and Victoria Island

Products: 60 Staff Polos · ACME approved template

Quantities: size matrix attached

Estimated internal request: ₦450,000 · TEST DATA

Needed-by: Nov 15 · Reason: 2027 staffing

Attachments: collection summary · personalization file

ACME APPROVAL POLICY

Above ₦250,000 requires a separate approver · TEST POLICY

Approval history: request submitted → pending decision

APPROVE

REQUEST CHANGES

DECLINE

This decision authorizes ACME spend. HolyPearls Quote Acceptance is a separate capability.

25 Approval Request Changes

PRIMARY END-TO-END FIXTURE · 60 PEOPLE · 45 LINK + 15 CSV · 2 LOCATIONS · 2 CSV ISSUES · Approver records a reason; buyer edits and resubmits. Earlier decisions remain visible.

Request changes

REQUEST CHANGES · reason required

"Reduce polo quantity from 60 to 45 and remove aprons."

[SEND CHANGES REQUEST]

Buyer sees CHANGES REQUESTED · draft editable

[EDIT REQUEST] [RESUBMIT FOR APPROVAL]

History: request V1 → changes requested → revised request V2 → approved

26 Group Collection Setup

PRIMARY END-TO-END FIXTURE · 60 PEOPLE · 45 LINK + 15 CSV · 2 LOCATIONS · 2 CSV ISSUES · Collection starts from an approved template or current project configuration.

NEW GROUP COLLECTION · 2027 Staff Uniforms

Source: ACME Staff Polo Template · APPROVED

Name: 2027 Staff Uniforms

Participants: 60 people · 45 secure-link participants · 15 CSV-imported contractors · 2 initial CSV issues · 2 locations.

Deadline: Oct 12 · organizer can pause, extend, close

Choices: size, employee name, branch

Payment: ORGANIZATION PAYS · Delivery: LOCATION DELIVERY

Access: unguessable secure invite link; no account required

[PREVIEW PARTICIPANT FORM] [CREATE DRAFT COLLECTION]

PRIMARY 60-PERSON JOURNEY · Source: saved Staff Uniform Project HP-P-... and approved/current Staff Polo configuration. Authorized organizer creates Group Collection; guest project quote access remains separate.

27 Participant Choice Policy

PRIMARY END-TO-END FIXTURE · 60 PEOPLE · 45 LINK + 15 CSV · 2 LOCATIONS · 2 CSV ISSUES · Organizer previews allowed choices and company locks before opening.

Policy editor / participant preview

PARTICIPANTS CAN CHANGE: Size (required), Employee name (allowed), Branch (approved list)

LOCKED BY ACME: Navy Staff Polo, Logo V4, left-chest embroidery

Quantity: one polo per participant under test rule

Delivery: branch; no home address fields

Payment: organization; no participant checkout

Personalization: required, max characters / format shown

[SAVE POLICY] [PREVIEW AS PARTICIPANT]

28 Group Lifecycle

Closing does not create a production order; review and Order Draft are separate steps.

Collection states

DRAFT → OPEN → PAUSED / CLOSED

OPEN: accept secure-link submissions until deadline

PAUSED: submission temporarily blocked, reason + reopen action

CLOSED: read-only submissions; organizer reviews missing/invalid data

NEEDS REVIEW → READY TO ORDER → ORDER CREATED

CANCELLED: record/history retained

CLOSE → REVIEW → CREATE ORDER DRAFT → approval if required → Stage 3.1E

A · CLOSED / NO DRAFT

[REOPEN COLLECTION] allowed for organizer.

Set new deadline; submissions editable again only while OPEN and policy permits.

Existing participant data preserved.

B · DRAFT EXISTS

Warning: REOPENING WILL INVALIDATE CURRENT ORDER DRAFT.

Current draft HP-DRAFT-XXXX · [REOPEN & MARK DRAFT STALE] [KEEP CLOSED]

If reopened: ORDER DRAFT STALE — COLLECTION CHANGED.

After close: [REGENERATE ORDER DRAFT] or [RECONCILE CHANGES].

C · REQUEST APPROVED

This collection was used for an approved purchasing request.

No casual reopen. [REQUEST CHANGE] routes through controlled change/reapproval.

D · HOLYPEARLS QUOTE ISSUED

No direct reopen. [REQUEST PROJECT / ORDER CHANGE].

Material participant changes may require updated quote and organization reapproval.

E · PRODUCTION STARTED

Participant submissions are effectively READ ONLY.

[REQUEST PRODUCTION CHANGE] · cost/timing may change or request may be impossible.

Reuse Stage 3.1E post-approval/production change logic.

PAYMENTS REQUIRE RESOLUTION

CANCEL COLLECTION with paid participants.

3 participants paid · ₦75,000 collected · TEST DATA.

[CONTINUE TO CANCELLATION REVIEW] [KEEP COLLECTION]

Collection cancellation does not erase payment records.

Stage 3.1E REFUNDED / PARTIALLY REFUNDED remain financial source of truth.

After Order Draft passes approval and HolyPearls creates an order, Group status ORDER CREATED exposes [VIEW CREATED ORDER] using Stage 3.1E tracking.

If allowed: [IMPORT 114 VALID ROWS]

Skipped/error rows remain visible for follow-up; no silent loss

Success shows imported count, skipped count, and collection participant totals

43 Duplicate Participant

CSV VALIDATION TEST FIXTURE · 120 ROWS · 114 VALID · 6 NEED ATTENTION · SEPARATE FROM PRIMARY · Show both records and require an explicit decision.

Duplicate employee ID 1044

EXISTING: Sola John · VI · invited by link · size M

NEW CSV ROW: Sola John · VI · size L

Match source: employee ID; compare email and key fields

[MERGE] [KEEP BOTH] [REPLACE EXISTING] [SKIP NEW]

No auto-delete or silent overwrite; audit chosen action

44 Collection Closing

SCALE TEST FIXTURE · 120 PARTICIPANTS · Closing freezes submissions for review; unresolved entries require a decision before draft creation.

120-person collection · close review

COLLECTION SUMMARY · 120 invited · 118 valid · 2 unresolved

[RESOLVE 2] or [EXCLUDE 2] if policy allows

Aggregate product quantities, size matrix, names, branch delivery groups, payment coverage

[CREATE ORDER DRAFT] only after review

Collection CLOSED → NEEDS REVIEW / READY TO ORDER → ORDER CREATED

No production starts at collection close

45 Collection → Order Draft

PRIMARY END-TO-END FIXTURE · 60 PEOPLE · 45 LINK + 15 CSV · 2 LOCATIONS · 2 CSV ISSUES · Handoff reuses Stage 3.1D/E and keeps group provenance.

60-person stress test · Order Draft

2027 STAFF UNIFORMS · ORDER DRAFT CREATED

45 employees by link + 15 contractors by CSV; 2 invalid CSV rows corrected before handoff

60 Staff Polos · size aggregation · names · Lekki + VI delivery groups

Open items: none after correction; excluded entries would be named here

TEST ESTIMATE ₦450,000 > ₦250,000 policy threshold

Next: AWAITING ORGANIZATION APPROVAL → HolyPearls Quote / Order flow

Project and order records use existing Stage 3.1D/E states

Order Draft retains Project ID, Group Collection ID, approved Template ID, participant submission IDs, source file references, size matrix, names, and Lekki/VI delivery groups. Other project products stay linked outside this Staff Polo draft.

46 Multi-location Group Summary

SCALE TEST FIXTURE · 120 PARTICIPANTS · Location totals inform delivery grouping; no branch participant needs a home address.

2027 Staff Uniforms · by location

Lekki: 42 submitted · size totals by location · Staff Polo quantities

Victoria Island: 21 submitted · size totals by location

Ikeja: 20 submitted · size totals by location

83 submitted across 3 approved locations

Participant is preassigned or chooses from allowed branches

[VIEW LOCATION BREAKDOWN] [CREATE DELIVERY GROUPS]

Branch delivery uses location defaults; no personal address field

47 Company Store — Procurement Mode

Private ACME approved catalog for authorized managers and buyers; it is not public product search.

ACME TEAM STORE · Procurement

PRIVATE / NOINDEX · ACME HOSPITALITY GROUP

Approved items: Staff Polo · Chef Jacket · Apron · Name Badge

Order for: [LEKKI / VI / IKEJA / TEAM / PROJECT] within assigned scope

Each card links to approved template and allowed order fields

Staff Polo · AVAILABLE · [ORDER FOR TEAM]

No free-form branding editor or public product directory

INDIVIDUAL ORDERS

ORDER MODE: ORDER INDIVIDUALLY

Each employee submission creates an INDIVIDUAL COMPANY ORDER REQUEST.

Organization approval if required → Stage 3.1E HolyPearls flow.

Employee does not select the underlying routing mode.

GROUP COLLECTION

ORDER MODE: COLLECT INTO GROUP ORDER

Connected Collection: 2027 Staff Uniforms.

Employee submission becomes PARTICIPANT SUBMISSION; no order yet.

Organizer closes → reviews → Order Draft → approval if required → HolyPearls flow.

48 Company Store — Employee Mode

Invite-link employee sees only approved items and simple choices.

ACME TEAM STORE · Employee Mobile 390

ACME HOSPITALITY GROUP

Choose an approved uniform item

STAFF POLO · AVAILABLE [CHOOSE]

APRON · AVAILABLE [CHOOSE]

ACME pays under this example; no checkout amount

No full HolyPearls account required for secure invite link

Your selection joins the 2027 Staff Uniforms collection. The organizer reviews all responses before creating an order.

GROUP COLLECTION MODE is configured by ACME. Employee sees “Your selection joins the team order,” not internal routing terminology.

49 Company Store Product

Approved template defines locked production fields and the allowed employee choices.

STAFF POLO · Employee Mobile 390

STAFF POLO · approved ACME product

LOCKED BY ACME: Navy · Logo V4 · left-chest embroidery

CHOOSE: size [XS S M L XL XXL]

Name personalization [input] · Branch [Lekki / VI / Ikeja]

Availability: AVAILABLE

[REVIEW SELECTION]

Individual mode: creates one company order request. Group mode: creates one participant submission in the connected collection.

50 Allowance / Budget

OPTIONAL ALLOWANCE TEST DATA · Optional policy states; do not make a budget a default requirement.

Policy catalogue

NO LIMIT

PER-ORDER LIMIT

PER-PERIOD ALLOWANCE

VOUCHER / CREDIT

Allowance example · test data

UNIFORM ALLOWANCE · ₦75,000

Remaining: ₦32,500 · renews Jan 1

TEST DATA · visible only when ACME enabled policy

[VIEW POLICY DETAILS]

51 Allowance Exceeded / Approval

ACME TEST POLICY · Explain the rule and only show allowed recovery actions.

Exceeded allowance

ALLOWANCE EXCEEDED

Your selection exceeds the remaining ₦32,500 test allowance.

[REDUCE ORDER]

[REQUEST APPROVAL] if ACME policy permits

[PAY DIFFERENCE] only if ACME permits participant contribution

No gamified progress or hidden charge

Approval threshold

APPROVAL REQUIRED

ACME requires organization approval above ₦250,000 · TEST POLICY

[SUBMIT FOR APPROVAL]

Do not send to HolyPearls quote or production yet

52 Buyer Experience

Buyer can purchase from approved resources without team, billing or asset administration.

Buyer overview · Tomi

QUICK ORDER / REORDER

APPROVED TEMPLATES: Staff Polo · Chef Jacket · Apron

MY DRAFTS: 2027 Staff Uniform Reorder

MY ORDERS: links to Stage 3.1E tracking

GROUPS if allowed: 2027 Staff Uniforms

Navigation: Overview · Templates · Orders · Groups · Store

No Team, full Billing, asset replacement or organization Settings

53 Approver Experience

Focused queue leads to the dedicated approval review, not a tiny table action.

Approver overview · Uche

ORDERS TO APPROVE

2027 Staff Uniform Reorder

Requester: Tomi · Lekki + VI

Amount: ₦450,000 test estimate · Needed-by Nov 15

[REVIEW REQUEST]

History and location scope available; no automatic Buyer privileges

54 Owner / Admin Experience

Operational attention first, then active organization work.

Owner / Admin overview

NEEDS YOUR ATTENTION

Approvals · proofs · balances · groups missing submissions · templates needing review

[OPEN SPECIFIC ACTION] for each state

ACTIVE PROJECTS / ORDERS — Stage 3.1D/E links

MANAGE: assets · templates · team · locations · optional store policy

No vanity revenue chart or HolyPearls internal operations

55 Workspace Search

Private scoped search covers workspace records only.

Search workspace

[SEARCH ORDERS, PROJECTS, TEMPLATES, ASSETS, GROUPS]

“2027 uniforms” → Group + Project / Order

“logo v4” → Asset and linked templates

“HP-2026-0142” → existing Stage 3.1E order

“staff polo” → approved template and permitted order

Results enforce role/location scope server-side

Public catalogue results remain outside default workspace search

56 Orders / Projects reuse

Workspace links to the frozen records; it does not create a second tracking system.

Projects and Orders lists

PROJECTS: Draft · Quote Pending · Quote Ready · Active · Complete → Stage 3.1D

ORDERS: Needs Attention · Active · Complete → Stage 3.1E

Filter by permitted location; open existing record

Proof / payment / item / shipment states remain Stage 3.1E

Exact Reorder uses historical order; Template Order uses approved template

Lists paginate and use server filtering

57 Responsive comparison

Mobile workspace prioritizes action; desktop supports overview and data work.

Mobile 390

Attention → Quick Reorder → Active Orders → Groups

Cards and detail screens, no compressed tables

Participant flow is lighter than organizer workspace

CSV import possible but desktop is preferred

Desktop 1440

Sidebar: role-aware workspace navigation

Main: action + record content

Optional right summary only for review/approval

Structured tables for members, participants and CSV

No giant unused whitespace or ERP density

58 Security / privacy annotations

Private surfaces and location permission are enforced by the server, with clear audit events.

Access and indexing

Workspace, store and participant routes: PRIVATE · NOINDEX

Workspace requires server authorization; location scope enforced server-side

Participant link is an unguessable token; participant sees only their own response

Sensitive asset download and CSV export require authorized role

Do not expose peer names, addresses, sizes or payment details

Audit / a11y / performance

Audit role change, invite, asset replacement, template approval, organization approval, group close/reopen

Keyboard navigation and labeled location switcher

Semantic desktop tables + usable mobile cards; locked fields explained

Text statuses and CSV error messages, never color alone

Server-first overview; paginated lists; async CSV states; no aggressive polling

59 State catalogue

Representative states from the 3.1F matrix. Keep state domains distinct.

Workspace / Assets / Templates

WORKSPACE: NEEDS ATTENTION · ACTIVE · MULTI-LOCATION · SINGLE-LOCATION

ASSET: PRODUCTION READY · PROCESSING · NEEDS REVIEW · SUPERSEDED · ARCHIVED · NEW VERSION

TEMPLATE: DRAFT · AWAITING HOLYPEARLS APPROVAL · APPROVED · NEEDS REVIEW · ARCHIVED

INVITE: PENDING · ACCEPTED · EXPIRED · REVOKED

Approval / Group / Participant

ORGANIZATION APPROVAL: AWAITING APPROVAL · APPROVED · CHANGES REQUESTED · DECLINED

GROUP: DRAFT · OPEN · PAUSED · CLOSED · NEEDS REVIEW · READY TO ORDER · ORDER CREATED · CANCELLED

PARTICIPANT: INVITED · NOT STARTED · IN PROGRESS · SUBMITTED · NEEDS CORRECTION · SIZE UNSURE · COLLECTION CLOSED

CSV / Store

CSV: UPLOADING · MAPPING · VALIDATING · VALIDATED · PARTIAL ERRORS · DUPLICATE

STORE: AVAILABLE · TEMPORARILY UNAVAILABLE · NEEDS REVIEW · ALLOWANCE ACTIVE · ALLOWANCE EXCEEDED · APPROVAL REQUIRED

PAYMENT / PROOF / ORDER / SHIPMENT remain the frozen Stage 3.1E state machines

APPROVAL / DRAFT

ORGANIZATION_APPROVED — policy approval recorded with amount and material scope

ORDER_REQUEST_APPROVED — customer request decision recorded; separate from quote acceptance

ORGANIZATION_REAPPROVAL_REQUIRED — final quote exceeds authority or policy-defined material scope changed

ORDER_DRAFT_STALE — collection changed after draft generation; regenerate/reconcile before approval

COLLECTION / ASSET / PAYMENT

COLLECTION_REOPENED — open edits again only under downstream boundary

ASSET_RETIRED_FOR_NEW_USE — old asset forbidden for new orders; history preserved

TEMPLATE_AVAILABLE_USING_PRIOR_ASSET — V4 permitted while V5 is reviewed

TEMPLATE_BLOCKED_ASSET_REVIEW — V4 retired; V5 or alternative must be approved

PAID_PARTICIPANT_REMOVED — submission excluded, payment retained

PAYMENT_RESOLUTION_REQUIRED — refund/credit review; Stage 3.1E financial states remain source of truth

60 Journey maps

All 15 required journeys preserve scope, history, approval boundaries and existing quote/order handoff.

J1–J5

J1 First completed order → save approved template → quick template order / exact reorder choice

J2 Buyer → approved template → under threshold → HolyPearls quote/order flow

J3 Buyer → over threshold → separate Approver → approved → HolyPearls flow

J4 Approver requests changes → Buyer edits → resubmits → Approver approves

J5 Uniform project → sizes unknown → group collection → participant submissions → close → review → Order Draft

J6–J10

J6 Group → CSV upload → map → 6 invalid rows → fix / partial import → ready

J7 Secure participant link → size → name → branch → review → submit

J8 Individual delivery + participant pays → address and Stage 3.1E payment → submit

J9 Multi-location group → aggregate size/product by branch → Order Draft

J10 Logo V4 → upload V5 → template impact → review → V5 production ready, history intact

J11–J15

J11 Company Store → employee self-order → organization pays → policy-defined request

J12 Store → allowance exceeded → reduce or request approval → policy resolution

J13 Underlying product unavailable → template needs review → approved alternative

J14 Guest participant → CLOSED read-only → organizer reopens before draft; after draft, draft becomes stale; after approval/quote/production, controlled change flow.

J15 Member deactivated → location access revoked → historical orders remain intact

C1 ₦450k request → organization approves ceiling → HolyPearls ₦440k quote → approval valid → authorized quote acceptance

C2 ₦450k ceiling → HolyPearls ₦485k quote → reapproval required → approver approves → authorized quote acceptance

C3 Employee Store · Individual Orders → individual company order request → policy → HolyPearls flow

C4 Employee Store · Group Collection → participant submission → organizer close/review → Order Draft

C5 Logo V5 under review → V4 still permitted → template orders on V4 → V5 approved → template review/migration

C6 Logo V5 under review → ACME retires V4 → template blocked → approve V5/alternative → restore ordering

C7 Collection closed → Order Draft exists → reopen warning → draft stale → reclose → regenerate/reconcile

C8 Organization-approved collection → change request → controlled scope review/reapproval

C9 Paid participant removed → production submission excluded → payment record retained → refund/credit review

C10 Participant-paid collection cancelled → payments remain auditable → cancellation review → Stage 3.1E refund/credit path

61 New primitives / changelog

New workspace and collection primitives reference frozen commerce and transaction systems.

New proposed primitives

WF/Workspace/RoleNav · WF/Workspace/LocationContext · WF/Workspace/Attention

WF/Asset/VersionCard · WF/Template/LockExplanation · WF/Approval/RequestReview

WF/Group/OrganizerSummary · WF/Group/ParticipantCard · WF/Group/ChoicePolicy

WF/Participant/SecureEntry · WF/Participant/VisibleSize · WF/CSV/MappingRow

WF/CSV/ValidationIssue · WF/Store/ApprovedProduct · WF/Store/AllowanceState

Model and change log

MODEL TERMINOLOGY: Stage 1.2 Catalogue ProductTemplate is the product model; Stage 3.1F Approved Workspace Template is a separate saved production specification that references it. Do not store both as one generic template record.

Participant ≠ Member; Group Collection ≠ production Order; Order Request approval ≠ HolyPearls Quote Acceptance.

FIXTURE RULE: PRIMARY END-TO-END = 60 people (45 secure link + 15 CSV, two initial CSV issues, two locations). SCALE = 120 participants. CSV VALIDATION = separate 120 rows / 114 valid / 6 errors.

New: Organization/Location scopes, role-aware views, asset/template version impact, group/participant/CSV/store paths.

Reused: Stage 3.1C configuration, Stage 3.1D projects, Stage 3.1E quote/payment/proof/order/shipment.

No new public catalogue, staff admin, high-fidelity system or implementation PRD.

CHANGED

Quote authority compared against approved amount and material scope; reapproval blocks uncovered acceptance.

Store configuration routes submission to Individual Order Request or Group Participant Submission.

Fixture labels separate primary 60, scale 120 participants, and CSV validation 120 rows.

Asset V4 permitted vs retired outcomes control template orderability.

Collection reopening is gated by draft, approval, quote and production boundaries.

Paid removal/cancellation keeps payment records and requires resolution.

UNCHANGED / NEW CLARIFICATIONS

Frozen 3.1C configuration, 3.1D project and 3.1E quote/payment/proof/order behavior remain reused.

Organization → Location → Member, roles, assets/templates, group lifecycle, guest flow, CSV, store, privacy/NOINDEX and audits remain.

Organization Approval ≠ HolyPearls Quote Acceptance; Order Request ≠ Order Draft ≠ HolyPearls Order.

Group Collection ≠ Participant Submission; Workspace Product Template ≠ Stage 1 Catalogue Product Model.

Exact Reorder ≠ Template Order. No policy engine, refund back office, staff admin or high-fidelity styling added.

Integration audit: source-project/collection/template provenance, created-order navigation and historical-order links are explicit; Workspace remains optional for guest commerce.
